bpv BRAUN PARTNERS and GDPR.cool supported the conference The Impact of GDPR in Practice: Problems, Ambiguities and Upcoming Changes

A conference organized by the Forum publishing house took place at Hotel Olympik in Prague in late October on the practical issues surrounding the General Data Protection Regulation, which took effect this May. The conference drew about 80 attendees.

The GDPR is already in effect, but it is still surrounded by a great deal of uncertainty and unanswered questions in practice. This conference brought together GDPR experts to answer some of these questions. Attendees heard legal opinions from experts including Mgr. Klára Valentová, JUDr. Jaroslav Škubal and JUDr. Jiří Žůrek on general GDPR issues as well as the new Personal Data Protection Act.

GDPR.cool was represented at the conference by [Jiří Bárta](#) and [Gabriela Jiráková](#), attorneys from bpv BRAUN PARTNERS specializing in personal data protection.
